

Brookville Equipment Corporation
Product Information Bulletin 69 (11/30/2011)
All Mining Equipment
Instructions to Remain Seated While the Vehicle is in Motion

Purpose:

To reinforce the necessity to remain properly seated while the vehicle is in motion.

Action:

Before tramping, the operator and all passengers are to be properly seated and are to remain properly seated while the vehicle is in motion. All persons are to keep their head, body, and extremities within the interior perimeter of the operator/passenger compartment at all times.

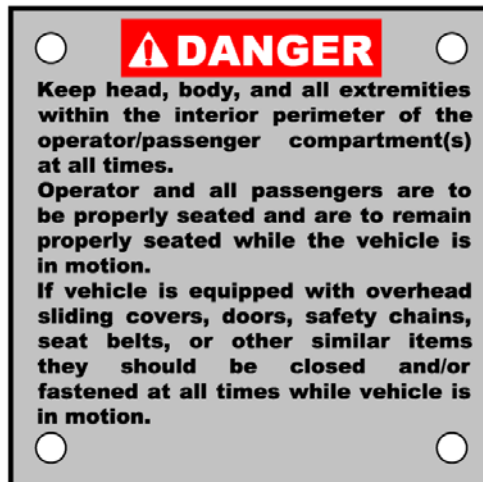

The vehicle may also be equipped with such items as overhead sliding covers or doors, safety chains, seat belts, or other similar restraints. These items are to be fully closed and/or fastened before tramping and must remain fully closed and/or fastened at all times while the vehicle is in motion.

Failure to follow these operating instructions may result in death or serious injury.

Brookville Equipment has available a warning plate (see sample below) to be applied in all operator and passenger compartments. Contact Brookville Equipment Corporation at (814)849-2000 to have a warning plate (p/n T1628) shipped to you at no charge using the attached Order Form. When you have received and installed the new warning plate please return the attached Verification Form for our records.
